HTR Trailer Tyre

11R22.5 HTR Trailer Tyre

Tested in Australia...

...for the last 3 years in the most rugged conditions from cattle transport to logging, in the most extreme heat conditions in Darwin.

Features/Benefits

- HTR has a 7mm cushion which protects the casing from stone drilling.
- The 7mm cushion rubber also eliminates heat travelling from the case to the tread area which creates overall good mileage
- Closed shoulders give a nice even wear on long haulage.

Specifications

- Tread depth = 14mm • load / speed rating = 148/145 L
